WATER PUMPS

CF-20 Series - 12V/24V Fresh Water Marine Heater Pump

Two chamber, positive displacement diaphragm pump for smooth and quiet operation. Self-priming. Built-in adjustable pressure switch. Automatically starts and stops when the faucet is opened and closed. 60° C (140° F).

CF-20A - 12V/24V Mini High Pressure Fresh Washer Pump

Two chamber positive displacement diaphragm pump for smooth and quiet operation. Self-priming. All stainless steel parts. Small size, light weight, high pressure, compact structure, stable performance, easy to carry.

CF-30 Series - 12V On Demand Diaphragm Fresh Water Pump

Compact design. Smooth and quiet operation. Self-priming. Intermittent duty. Industry standard mounting pattern. Adjustable pressure. Hose connection with multiple fittings allows for connection to any outlet

CF-40 Series - 12V High Pressure Fresh Water Pump

Provides high volume water flow. Two chamber diaphragm and internal bypass. Designed to run on water systems with no accumulator or with a holding tank. High pressure. Self-priming. Built-in pressure switch. Automatically starts and stops.

Detailed specifications available upon request. Fittings available for most connections.

WATER PUMPS

DP Series High Performance Three Chamber Diaphragm Pump

Three chamber diaphragm pump capable of extreme workloads. Matched with high performance motor, the DP series has extreme chemical capability and goes beyond the normal call of duty. Easy to install, service and winterize.

CFDP-2200 - 12V Food Grade Diaphragm Pump

Food grade water pump. High efficiency motor. Made from durable, high quality ABS material. Very easy to install. Low power consumption. Self-priming. Intermittent duty.

CFDP-4200 - 24V High Pressure Stainless Steel Pump

Micro stainless steel food safe pump. Reliable quality and long service life. Self-priming, low noise, easy installation, stable performance. Dual outlet design.

MACERATOR PUMP

CF-65 Series DC Marine Macerator Pump

45LPM fully sealed motor with a powerful chopper blade. The sealed motor consists of sealed o-ring end bells and bearings and a durable powder coating to prevent corrosion both internally and externally. The ideal solution for the emptying of marine holding tanks, fish boxes and live well receptacles. Pump grinds waste into small particles for easy disposal.

Detailed specifications available upon request. Fittings available for most connections.

BILGE PUMPS

CFBP-0203-04 - Manual Marine Bilge Pump

12V submersible bilge pump offers water evacuation activated by a panel or float switch. Anti-airlock protection and exclusive moisture tight seals. Marine grade blocked wiring. Larger impeller design and robust motor delivers reliable high performance. Removable strainer base fits industry standard mounting. Available in 1100, 750, and 350 GPH models.

CF-BP-020 - Automatic Marine Bilge Pump

12V/24V, 750GPH submersible all-in-one bilge pump with float switch. Automatically turns on when water level rises and shuts off when water is removed. Compact, efficient, long life motor. Quiet operation. Stainless steel shaft. Anti-airlock protection.

A05-202001 - Automatic Float Switch For Marine Bilge Pump

Suitable for 12V-32V bilge pumps up to 20 amps. Ignition protected. Designed to automatically activate the bilge pump when the water level reaches 2" (51mm) and turn pump off when water level reaches 3/4" (19mm).

CF-IP1200 - Commercial Grade Brass Flexible Impeller Pump

12V Flexible impeller pump with heavy duty construction, commercial duty rated. High discharge brass head and simple design means fewer parts to wear out—all user serviceable. Pump head may be rotated 180 degrees to reverse direction of flow. Excellent flow rate, continuously rated pump.

Detailed specifications available upon request. Fittings available for most connections.

OTHER PUMPS & ACCESSORIES

CF-300/301/350- High Pressure Small Washdown Pump

Compact design. Best choice for cleaning boats, fish boxes, anchor wells, dinghies, and other similar applications. High performance and easy installation. No holding tank necessary. Huge 2.8 GPM capacity. On-demand switch with 35 PSI cutoff. Suitable for fresh, saltwater and chemical applications.

CF-400 Series -Freshwater Automatic Marine Water Pump

Smooth and quiet operation. Use it with fresh or salt water to run your toilet or shower. These pumps automatically turn themselves on and off when you turn the tap on and off. Comes with filter and fittings. For intermittent use only. Self-priming.

High Pressure Portable Washer Pump with Power Hose Gun

Quickly and efficiently removes stubborn dirt. Easy to use. Adjustable nozzle has a quick-connect feature to meet many different cleaning situations. Pump automatically shuts off when trigger is not engaged to save energy and prolong pump life. 35 ft power cord with inline GFCI for use on all exterior outlets.

CF-GP-1200 - Gear Oil Transfer Pump

12 LPM oil gear pumps are positive displacement pumps, capable of operation in either direction. They may be used to perform a variety of oil transfer applications (Not suitable for gasoline or other combustible fluids). Robust motor, stainless steel shafts and rugged metal gears. High performance that you can rely on for years.

Detailed specifications available upon request. Fittings available for most connections.
